

Unique Lifting Solutions

Hidden Lifts and Platform Stairlifts

HIDDEN LIFT

Equal opportunities for all!

In daily use the FlexStep Compact is a completely ordinary stair with a classic design, which can to a great degree be adjusted to individual requirements.

With a single press of a button the Flex-Step Compact transforms into a lift, which comfortably and safely raises the user to the upper level.

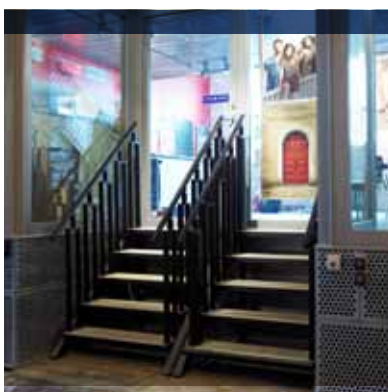

FlexStep Compact

The FlexStep Compact is the perfect solution to conquer split levels for all wheelchair users and walking-impaired persons in areas with minimal space. It's the most space-saving lift on the market and at the same time it offers a design to satisfy even the most fastidious user.

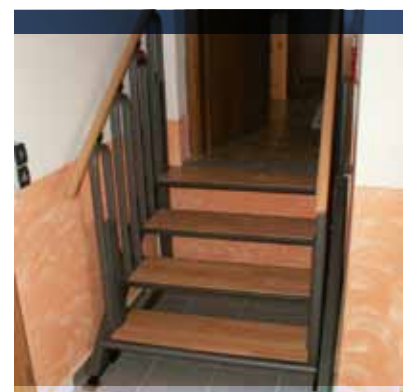

- For lifting heights up to 1250mm
- Indoor or outdoor applications
- Platform size; 1250x800mm (can be increased in the length or depth)
- Requires only a flat level base and smooth vertical face (no pit). No structural alterations necessary.

- Handrails available in Wood, Stainless Steel, Brass etc
- Wide selection of standard stair tread infills (alternatively customer can choose their own to match building decor)
- All metal components (handrail, ramp, lifting legs etc) can be powder coated in any colour from the RAL colour chart.

- Full battery back-up (in case of power cut)
- Fully automatic safety barrier at upper level (optional)
- Joystick controls on lift platform - hand held radio controls available as an optional extra
- 250kg safe working load

HIDDEN LIFT

Benefits:

- Elegant and user-friendly design for shops, hotels or companies
- Option of optical adjustment to surroundings
- Simple and easy operation for all
- No risk of squeezing from use and thus no special supervision needed
- A stable, registered lifting principle

LEVEL

HDN

The HDN represents clever and modern thinking within the industry, combining in one stroke design, function and elegance. This makes this lift especially attractive to shops and companies, who would like to combine their consideration of wheelchair users with their individual layout and style.

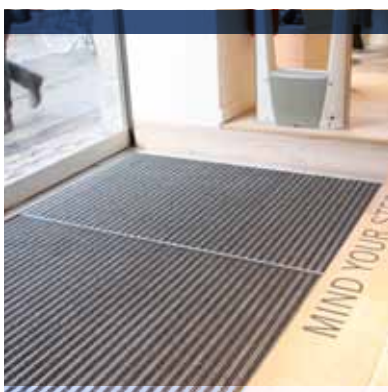

- Platform lift hidden within the floor
- Lift not visible when in lower position
- For lifting heights between 50- 500mm
- Indoor or outdoor applications
- Platform sizes; 1400 x 900mm, 1400 x 1000mm or 1400 x 1100mm

- Operated by radio controlled handset
- Customer can choose their own platform flooring so that lift blends effortlessly into floor
- Choice of 300kg or 400kg (safe working load) models

- Safety skirt (mechanical wheel stop) raises into position before lift leaves the lower landing
- Optional (post mounted) platform controls available

PLATFORM STAIRLIFT

Comparison: platform lifts – chair lifts

- Upon request, Ascendor can fit an integrated folding seat to the lift
- 3 in 1 – Platform lift can be used to transport wheelchairs, seated persons and light goods
- A chair lift becomes obsolete, should mobility assistance or a wheelchair be required in the future

Ascendor

The Ascendor proves that it is possible to combine elegance and functionality in platform stair lifts for straight and curved staircases, for indoor and outdoor use.

- Indoor or outdoor applications
- Most aesthetically pleasing platform stairlift available
- Extremely slim and compact
- Suitable for straight & curved staircases
- Various platform sizes available; including 1250 x 800mm and 1000 x 800mm (through and side access)
- Small profile Stainless Steel guide tubes - top tube can be used as a handrail
- Call stations operate on radio frequency - no need for unsightly surface mounted conduit

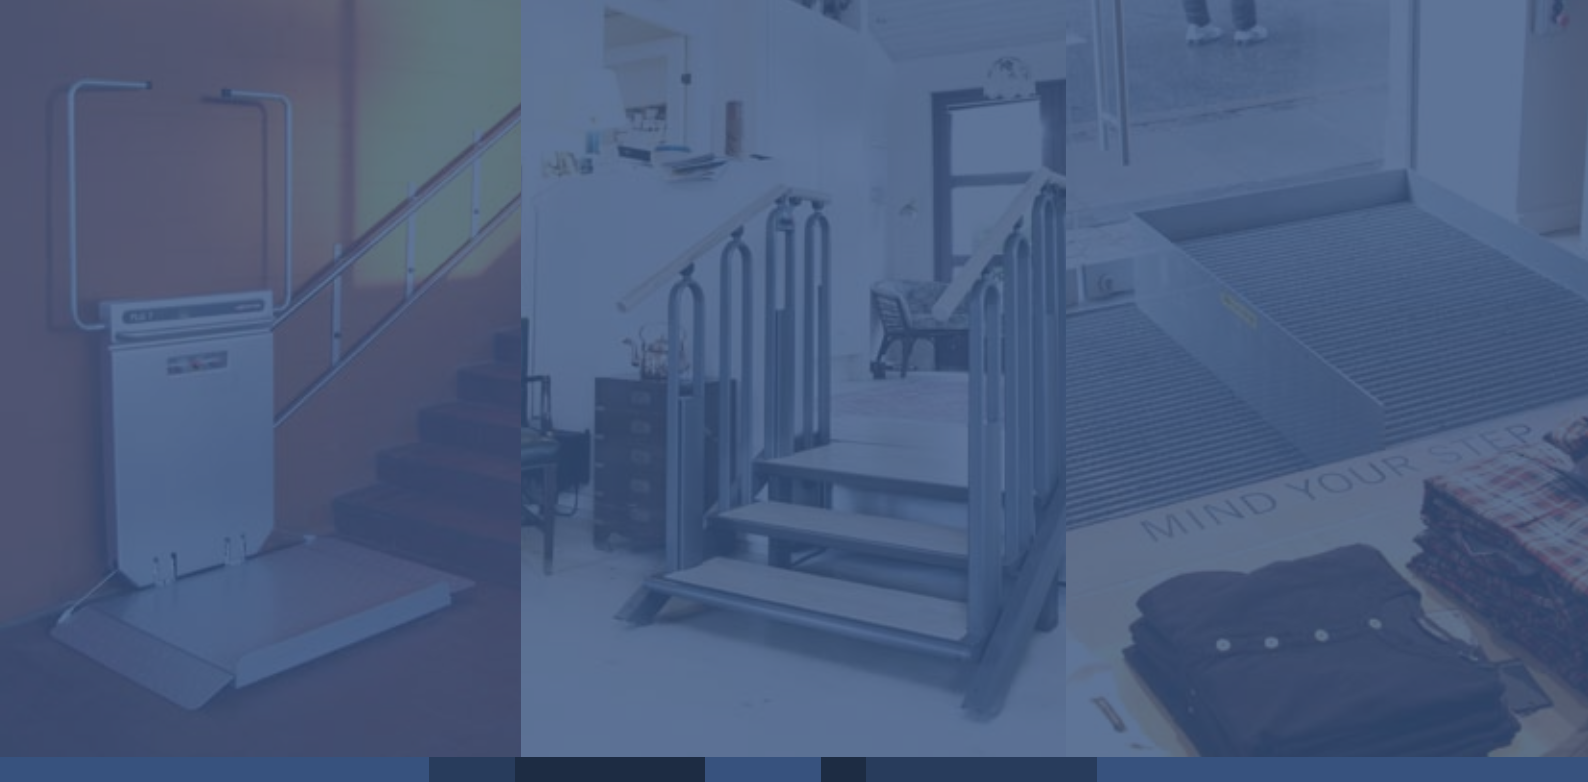

- Barrier arms fold down when not in use (minimising potential vandalism)
- Platform hides the operating buttons when folded up (minimising potential vandalism)
- Platform buttons are touch sensitive - ideal for users with impaired motor skills
- Lift runs from continually re-charged batteries; lift will operate in both directions in the event of a power failure
- 225kg safe working load - can be upgraded to 300kg (optional)

- Various options available including; radio controlled hand-held attendant controls, folding seat, autodialler via clients own mobile phone SIM card (to call for assistance)
- Available in special colours or Stainless Steel - optional
- Onboard digital display; In the unlikely event of a breakdown, a fault code will be displayed which drastically reduces the amount of time that the lift is out of action
